Microsoft 365 Copilot Analytics — Quick-Start Cheat Sheet

Implementation Checklist • All 5 Tiers • February 2026

Tier 1 — Admin Center (Day 1)

- ☐ Verify Reports Reader role
- ☐ Reports → Usage → Microsoft 365 Copilot
- ☐ Wait ~72 hours for data → export CSV

Tier 2 — Copilot Dashboard (Day 1–7)

- ☐ Verify 50+ assigned Copilot/Viva Insights licences
- ☐ Verify Entra ID manager hierarchy populated
- ☐ AI Admin: add self + users to access
- ☐ Insights Admin: enable Manager Settings (toggle on "Grant managers scoped access")
- ☐ Upload org data CSV (PersonId, ManagerId, Organization + custom)
- ☐ Configure minimum group size (default 10, min 5)
- ☐ Configure hourly rate for ROI (default $72/h)
- ☐ Optional: exclusion list, sentiment surveys
- ☐ Wait up to 7 days → verify all 4 pages

Tier 3 — Analytics Reports (Auto)

- ☐ No action — auto-available to Dashboard users
- ☐ Verify: Viva Insights → Reports (left nav)

Tier 4 — Agent Dashboard (Day 7+)

- ☐ On by default — verify in Viva Insights left nav
- ☐ Delegates need "Your company" scope (not "Your group")
- ☐ If agents deployed, verify activity data

Tier 5 — Advanced Analytics (Week 2+)

- ☐ Assign Insights Analyst role → wait 1–2 hours
- ☐ Grant partition access
- ☐ Org data uploaded & processed (from Tier 2)
- ☐ Install Power BI Desktop (June 2022+)
- ☐ Create Copilot Impact query
- ☐ Connect Power BI via OData feed → apply template
- ☐ Configure scheduled refresh

Key URLs

M365 Admin Center	`admin.microsoft.com`
Entra Admin Center	`entra.microsoft.com`
Viva Insights	`insights.cloud.microsoft`
Copilot Dashboard	`insights.cloud.microsoft/#/CopilotDashboard`
Power BI Desktop	`powerbi.microsoft.com/desktop/`

Key Wait Times

Action	Wait
Admin Center data	~72 hours
Dashboard initial data	Up to 7 days
Manager settings change	1 hour
Access changes	24 hours
Min group size change	24 hours
Org data upload	Up to 7 days
Exclusion list apply	Up to 5 days
Exclusion list remove	Up to 3 days

Org Data CSV — Required Fields

Viva Insights	M365 Admin Center	Req?
PersonId	Microsoft_PersonEmail	Yes
ManagerId	Microsoft_ManagerEmail	Yes
Organization	Microsoft_Organization	Yes
EffectiveDate	N/A	Rec.
FunctionType	Microsoft_JobDiscipline	Opt.

Roles Needed

Role	What They Do
Global Admin	Assign licences & roles
AI Admin	Dashboard access, VFAM, exclusion lists
Insights Admin	Org data, privacy, manager settings
Insights Analyst	Queries, Power BI, advanced analysis

Common Gotcha: AI Admin does NOT get automatic dashboard access — must add self via access management settings.

Suggested Review Cadence

Cadence	Who	What
Weekly	IT Admin	Licence utilisation, inactive users
Fortnightly	Leaders	Assisted Hours, adoption trends
Monthly	Leaders	Analytics Reports, agent data
Quarterly	Analysts	Before/after analysis, ROI deck
