Microsoft 365 Copilot Analytics

Troubleshooting Guide

Consolidated issue resolution for all five analytics tiers

Document Property	Value
Layer	4 — Reference
Audience	All Roles
Version	4.0
Published	April 2026

How This Document Fits

This is a **Layer 4 — Reference** document. Use it to diagnose and resolve issues across all Copilot Analytics tiers. For setup instructions, see the Admin Setup Guide.

Layer	Purpose	Who Reads
1 — Strategy	Decide what to implement	CIO, SA, Business Leaders
2 — Setup	Configure and deploy	IT Admin, Insights Admin
3 — Operate	Use dashboards and reports daily	Leaders, Analysts, Managers
4 — Reference (you are here)	Look up details and fix issues	Everyone (as needed)

Table of Contents

1. Admin Centre Reports
2. Copilot Dashboard

3. Agent Dashboard
4. Advanced Analytics (Power BI)
5. Data Upload Issues
6. Auditing Delegation
7. Escalation Path

1. Admin Centre Reports

Symptom	Cause
No data displayed	Reports take up to 72 hours to populate after initial licence assignmen
No Copilot licences visible	Licences not purchased or not assigned to users.
Can’t export CSV from reports	User does not have the Reports Reader role.
User details hidden / only aggregates visible	Concealed user details is enabled (privacy setting).
0 active users despite assigned licences	Users have not yet interacted with Copilot, or reporting has not caugh

2. Copilot Dashboard

Symptom	Cause
Access denied / cannot open dashboard	Multiple possible causes: VFAM (Viva Feature Access Manage
Impact page missing collaboration data	Behavioral Experiences (formerly “Collaboration data”) is turn
Only Readiness page visible (no Adoption or Impact)	Tenant has fewer than 50 assigned Copilot or Viva Insights lic
No group filtering available	Organisational data has not been uploaded.
Impact page shows no data	Requires at least 7 days of usage data after licence assignmer
Data suppressed / shows “N/A”	Group is below the minimum group size threshold (default 10)
Managers can’t see team data	Manager Settings are not enabled in Viva Insights.
Sentiment section is empty	No Copilot survey has been configured or responses haven’t b
Exclusion list not taking effect	Exclusion list changes take up to 5 days to propagate.
Org data not showing in filters	Wrong attribute names in uploaded CSV or missing `Effectiv`

3. Agent Dashboard

Symptom	Cause
Agent Dashboard not visible	Delegates need “Your company” scope (not “Your group”) to access the Agent Dashb
Agent Dashboard disabled	VFAM policy for AgentDashboard is set to OFF.
No agent data displayed	No agents have been deployed in the tenant, or agents have not been used.

4. Advanced Analytics (Power BI)

Symptom	Cause
Can’t access analyst experience	User does not have the Insights Analyst role assigned.
Query returns no data	Analyst’s partition does not include the target users.
Query fails with time period error	Selected time period exceeds available historical data.
Power BI won’t connect to Viva Insights	Authentication issue — incorrect account or expired token.
No segmentation available in PBI reports	Organisational data has not been uploaded or custom attributes are missi
Before/after analysis unavailable	No pre-adoption baseline data exists — Copilot was deployed before Viva

5. Data Upload Issues

Validation Failures

These errors occur before data is processed. The upload is rejected and no data is ingested.

Error	Cause
Blank `PersonEmail` / `PersonId`	One or more rows have an empty email field.
Missing required attributes	CSV is missing one or more required columns: `PersonEmail`, `ManagerE`
Empty rows in CSV	Blank rows (including trailing empty rows) cause validation to fail.
Unlicensed apps referenced	CSV references applications or services not licensed in the tenant.
Unsupported custom attributes	Custom attribute names contain spaces, special characters, or exceed 1(
`Microsoft_` prefix on custom attributes	Custom attributes must not use the `Microsoft_` prefix — this is reserve

Processing Failures

Status	Meaning	Resolutio
Processing failed	Backend error during data ingestion.	Retry the
Suspended	Credentials expired or backend system unavailable (common with HRIS connectors).	Re-authe
Partial success	Some rows failed validation (API, Workday, or SAP connectors only).	Downloac

> **Validation Error Reference**
>
> For the complete list of upload validation errors and error codes, see Validation errors for organizational data uploads on Microsoft Learn.

6. Auditing Delegation

Delegation changes are logged in **Microsoft Purview** audit logs. Use these operation names to track delegation activity:

Purview Operation	Description
`AddDelegates`	A delegate was added to the Copilot Dashboard or Viva Insights.
`RemoveDelegates`	A delegate was removed from the Copilot Dashboard or Viva Insights.

To view these logs: `compliance.microsoft.com` → Audit → Search → filter by Activities: `AddDelegates` or `RemoveDelegates` → filter by Workload: `Viva Insights`.

7. Escalation Path

If the troubleshooting steps above do not resolve the issue, contact **Microsoft Support**:

1. Navigate to `admin.microsoft.com` → Support → New Service Request
2. Select **Viva Insights** as the product
3. Provide the following information:
   - **Tenant ID** (from `admin.microsoft.com` → Settings → Org Settings → Organization Profile)
   - **Licence counts** (total Copilot and Viva Insights licences assigned)
   - **Error messages** (screenshot or exact text, including correlation IDs if available)
   - **Steps already taken** from this troubleshooting guide
